THE SRR AQUA SYSTEMS STORY

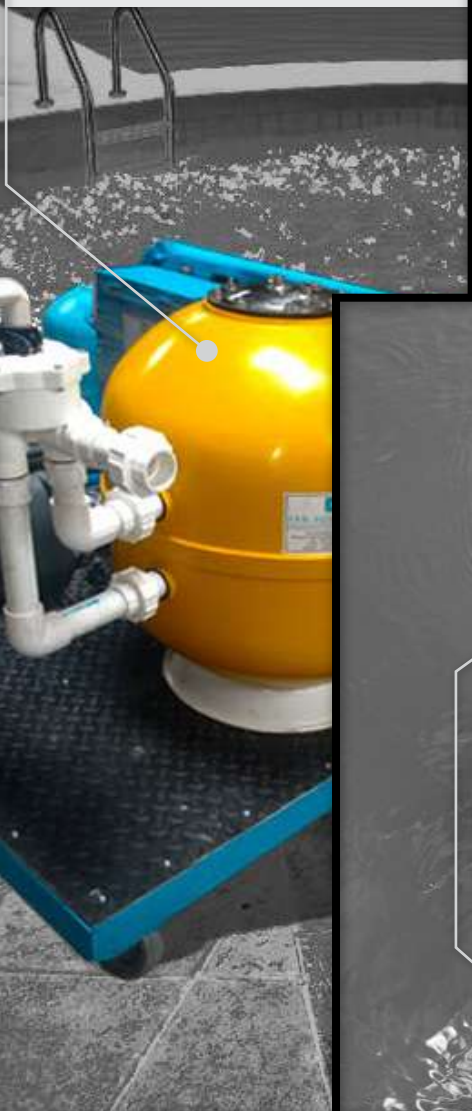

At SRR Aqua Systems, we believe that the sustainability of our world hinges on dependable access to clean water. We deliver a comprehensive range of smart water solutions for homes, businesses and industries globally. Our industry-leading and proven portfolio of solutions enables all stakeholders to access clean, safe water, reduce water consumption, and recover and reuse it. Whether it is for fitness or fun, irrespective of the size of the home, we continue to work until the world's water is managed in the best way possible.

Since 1996, we have assisted people, businesses and industries on over 4,000 projects in various capacities. More than the numerous accolades and recognition in the industry, we feel overjoyed with the many smiles that our projects have brought us. Our ISO 9001:2015 certified products are proudly "Made in India" at our state-of-the-art facility.

As your trusted manufacturer for pool equipment products, just as our customers do, we place emphasis on efficiency, durability, quality and innovation into solutions. Our R&D and continuous improvement efforts are directed to exceed customer expectations when it comes to product ingenuity and cost-effective solutions. Our Customer Success team works tirelessly to provide technical and warranty support across the entire lifecycle of every project. Perfect the pool experience with SRR Aqua Systems – your smart water solutions partner.

PRESSURE SAND FILTERS

The fiberglass wound filters are strong, durable and corrosion resistant. The unique design ensures stabilization of water flow through quick draining. These filters consist multiple layers of graded sand and are designed to remove turbidity and suspended particles present in the feed water with minimal pressure drop. These Filters are designed to suit the process requirement.

Residential Pressure Sand Filters

Widely known for their high end features and superior quality, these filters can also be customized at market leading prices. They are made of fiber reinforced plastic pressure filters with 500mm, 650mm and 850mm diameters, with side-mounted multiport valve.

Aurum 550

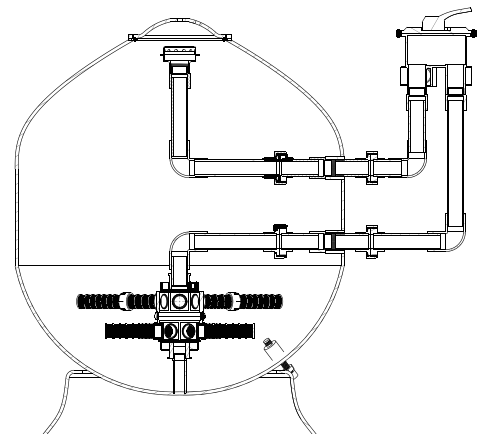

Emerald 650

Ruby 850

	Diameter (mm)	Height (mm)	Multi-Port Valve	Filter Media (Kg)	Capacity (Max LPH)
	550	650	25	200	8000
	650	900	40	300	11000
	850	1000	40	600	19000

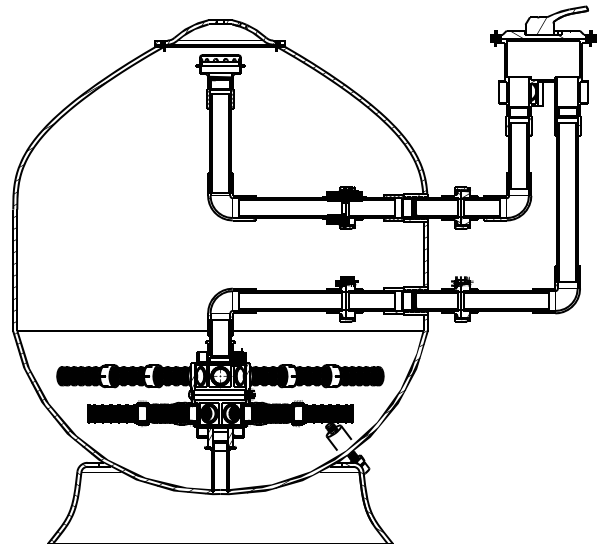

Commercial Pressure Sand Filters

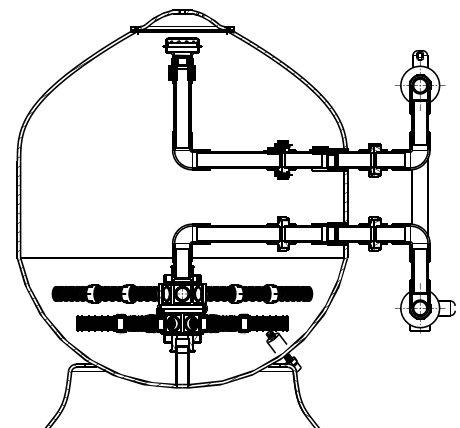

The fiberglass wound filters in these filters are strong, durable and corrosion resistant. The unique design ensures stabilization of water flow through quick draining. These filters consist of multiple layers of graded sand and are designed to remove turbidity and suspended particles present in the feed water with minimal pressure drop.

AQUA

Diameter (mm)	Height (mm)	Multi-Port Valve	Filter Media (Kg)	Capacity (Max LPH)
1000	1100	50	800	27000
1200	1280	50	1250	39000
1500	1600	75	2000	62000

Pre-filters and Priming Tanks

A pre-filter is a device which removes unwanted eye-visible particulate matter from the water. Water pre-filters remove sand, thick fibers and larger pollutants present in swimming pool. It is placed in between the pool and pumps to protect the pump impeller from getting damaged. It prevents particles >5mm from entering the pump.

Diameter (mm)	Height (mm)	Multi-Port Valve	Filter Media (Kg)	Capacity (Max LPH)
550	650	25	200	8000
650	900	40	250	11000

Diameter (mm)	Height (mm)	Material Composition
550	600	Mild Steel
250	350	Stainless Steel
250	350	Mild Steel

PRESSURE SAND FILTER ACCESSORIES

Pressure Sand Filter Accessories

Side Mount Multi-Port Valve
Available in 25 mm
